

We love our guests!

### **Five houses in matchless locations**

For more than 50 years the YMCA has been offering the possibilities of meeting and relaxing in a Christian-oriented atmosphere to groups, families and individuals.

For this purpose, the YMCA-‘Gesamtverband’ owns five houses, which offer unequalled opportunities due to their unique positions.

These houses are open to anyone, no matter what denomination or religion. Unlike many other facilities, we are happy when our guests use the opportunity to sing, pray and praise God.

### **We love being hosts**

Since we do not run our houses for economic interests but out of conviction, we have a special relation to our guests.

We put all our effort in making your stay as comfortable as possible and assist you in word and deed whenever needed. It is the greatest compliment for us to hear you say, “We will come back!”
